

COVID-19 OPERATIONS UPDATE

6/9/2020

Currently, all Potter County Conservation District staff are in the office, which is open 8 AM - 4:30 PM to the public without need for an appointment.

While Potter County is in the Green Phase for COVID-19 prevention, we do strongly recommend wearing a mask and visiting our building individually or in small groups, if possible. We are taking our own in-office, minor precautions at this time to keep the spread of the virus at bay.

The District's in-depth pandemic protocol is also available for more information on our website.

Thank you!
